culture technology is an essential guide to the fascinating history of these debates and offers new perspectives that give readers the tools they need to make informed decisions about the role of technology in our lives in clear and compelling language slack and wise untangle and expose the cultural assumptions that underlie our thinking about technology stories so deeply held we often don't recognize their influence the book considers the perceived inevitability of technological advance and our myths about progress it also looks at sources of resistance to these stories from the luddites of the 19th century to the unabomber in our own time slack and wise help readers sift through the confusions about culture and technology that arise in their own everyday lives book jacket

the essays in this volume discuss both the culture of technology that we live in today and culture as technology within the chapters of the book cultures of technology and cultural technologies are discussed focussing on a variety of examples from varied national contexts the book brings together internationally recognised scholars from the social sciences and humanities covering diverse themes such as intellectual property server farms and search engines cultural technologies and epistemology virtual embassies surveillance peer to peer file sharing sound media and nostalgia and much more it contains both historical and contemporary analyses of technological phenomena as well as epistemological discussions on the uses of technology

the culture of technology examines our often conflicting attitudes toward nuclear weapons biological technologies pollution third world development automation social medicine and industrial decline it disputes the common idea that technology is value free and shows that its development and use are conditioned by many factors political and cultural as well as economic and scientific many examples from a variety of cultures are presented these range from the impact of snowmobiles in north america to the use of water pumps in rural india and from homemade toys in africa to electricity generation in britain all showing how the complex interaction of many influences in every community affects technological practice arnold pacey who lives near oxford england has a degree in physics and has lectured on both the history of technology and technology policy with a particular focus on the development of technologies appropriate to third world needs he is the author of the maze of ingenuity mit press paperback

we are going virtual in more and more areas of our lives from shopping to education filing systems to love affairs how can we assess the relationship between technology and culture when culture is so imbued with technology this clear concise and readable text aims to offer the student a one stop guide through this complex and slippery terrain introducing a wealth of theoretical perspectives in a lucid and engaging style and covering a range of topical challenging and intriguing examples from cyborgs to digital art it will be an essential text for everyone wanting to make sense of crucial forces of change on contemporary culture

a witty often terrifying that chronicles our transformation into a society that is shaped by technology from the acclaimed author of amusing ourselves to death a provocative book a tool for fighting back against the tools that run our lives dallas morning news the story of our society s transformation into a technopoly a society that no longer merely uses technology as a support system but instead is shaped by it with radical consequences for the meanings of politics art education intelligence and truth

richard grusin s innovative study investigates how the establishment of national parks participated in the production of american national identity after the civil war the creation of america s national parks is usually seen as an uncomplicated act of environmental preservation grusin argues instead that parks must be understood as complex cultural technologies for the reproduction of nature as landscape art he explores the origins of america s three

major parks yosemite yellowstone and grand canyon in relation to other forms of landscape representation including photography mapping travel writing and fiction

childhood is increasingly saturated by technology from television to the internet video games to video nasties camcorders to personal computers children technology and culture looks at the interplay of children and technology which poses critical questions for how we understand the nature of childhood in late modern society this collection brings together researchers from a range of disciplines to address the following four aspects of this relationship between children and technology children s access to technologies and the implications for social relationships the structural contexts of children s engagement with technologies with a focus on gender and the family the situatedness of children s interactions with technological objects the constitution of children and childhood through the mediations of technology this book represents a substantial contribution to contemporary social scientific thinking both about the nature of children and childhood the social impacts of technologies and the various relationships between the two

in this exciting new book mike michael uses case studies of mundane technologies such as the walking boot the car and the tv remote control to question some of the fundamental dichotomies through which we make sense of the world drawing on the insights of bruno latour donna haraway and michel serres the author elaborates an innovative methodology through which new hybrid objects of study are creatively constructed tracing the ways in which the cultural the natural and the technological interweave in the production of order and disorder this book critically engages with and draws connections between a wide range of literature including those concerned with the environment consumption and the body

the writer s craft the culture s technology explores the multiple ways in which a culture s technological resources shape its literary productions literature and style cannot be divorced from the particular technologised culture that sponsors them this has always been true as papers here on literature from earlier periods show but many of the papers focus on contemporary culture where literature vies for attention with film the internet and other multimodal cultural forms these essays from an international array of experts are stylistics based but not stylistics bound they should be of interest to all who are interested in discourse analytic commentaries on how technological horizons as always continue to shape the forms and functions of literature and other cultural productions book jacket

technology is no longer confined to the laboratory but has become an established part of our daily lives its sophistication offers us power beyond our human capacity which can either dazzle or threaten it depends who is in control living in a technological culture challenges traditionally held assumptions about the relationship between man and machine it argues that contemporary science does not shape technology but is shaped by it neither discipline exists in a moral vacuum both are determined by politics rather than scientific inquiry by questioning our existing uses of technology this book opens up wider debate on the shape of things to come and whether we should be trying to change them now as an introduction to the

philosophy of technology this will be valuable to students but will be equally engaging for the general reader

this volume constitutes the refereed post conference proceedings of the 10th ifip wg 13.8 international conference on culture technology and communication catac 2016 held in london uk in june 2016 the 9 revised full papers were carefully reviewed and selected from 22 submissions the papers explore the intersections between culture technology and communication applying different theoretical and methodological perspectives genres and styles they deal with cultural attitudes towards technology and communication interaction design and international development

this book uses case studies of mundane technologies such as the walking boot the car and the tv remote control to question some of the fundamental dichotomies through which we make sense of the world

this volume documents the present crisis in american urban housing policies and portrays how artists within the context of neighborhood organizations have fought against government neglect shortsighted housing policies and unfettered real estate speculation through essays photographs symposiums architectural plans and the reproduction of works from the series of exhibitions organized by martha rosler the book serves a number of functions it is a practical manual for community organizing a history of housing and homelessness in new york city and around the country and an outline of what a human housing policy might encompass for the american city back cover

in a rare study of the influence of social factors on technological development seven scholars from various disciplines examine the soviet model used in the now former ussr and in the former satellites they include considerations of the history of science and technology in the region the economic environment the model's impact on the current transitions and the widespread environmental devastation that has resulted paper edition unseen 1995 annotation copyrighted by book news inc portland or

this exciting new book explores the relationship between cultural traditions and computers looking at how people from very different cultures and backgrounds communicate and how the use of information technologies can support and enhance these dialogues historically we developed our understanding of other cultures through traditional means museums printed literature etc but the advent of information technologies has allowed us access to a plethora of material tosa asks the question can we understand other cultures using computers as media to supplement thinking and memorization starting with a survey of art and technology moving into the area of culture and technology the book culminates with a vision of a new world based on an understanding of these relationships allowing cultural creators and viewers the opportunity to reach a better and more profound understanding of the role information technology will play going forward

our ancestors saw the material world as alive and they often personified nature today we claim to be realists but in reality we are not paying attention to

the symbols and myths hidden in technology beneath much of our talk about computers and the internet claims william a stahl is an unacknowledged mysticism an implicit religion by not acknowledging this mysticism we have become critically short of ethical and intellectual resources with which to understand and confront changes brought on by technology
